

October 11, 2023

****Note****

Due to the beginning of midterm season and a general sense of stress felt amongst the student body, the SGA executive team decided to cancel the 10/11/23 Business Meeting. Therefore, this set of meeting minutes will consist of supplementary material provided by President Compaan.

I. Committee Presentation

A. This presentation was created by DOC Leon to clarify what the committees are, who is on each, and what their specific focus areas are. It also includes a few special committees and more information regarding them, as well as some special committees I serve on. Please look this over carefully!

II. SGA Levels of Involvement

A. This video (4:28 long) goes over the four levels of involvement for SGA on campus. It also talks about how we position ourselves as proactive vs reactive. Please watch it so we can use this shared language and better understand how we operate!

III. General Remarks

A. Now that we have assigned two focus areas to each committee (other than PR), all work should be centered around those! Other topics are still important, but our focus should shift to those specific focus areas.

B. I'm proud of the work everyone is doing and the time you're dedicating to SGA.

Keep up the good work!
